

TACTICAL COMBAT CASUALTY CARE COURSE

March 7 - 8, 2019

8:00 AM - 5:00 PM Registration 7:30 AM

Sponsored by: Center for Sustainment of Trauma and Readiness Skills, The Maryland Committee on Trauma, and The R Adams Cowley Shock Trauma Center

Class will be held at: **Allegany County Public Safety Building, 11400 PPG Road South East, Cumberland, MD. 21502**

The ONLY standard of care dually endorsed by the American College of Surgeons and the National Association of EMTs for Casualty Management in Tactical Environments

Course Description/Objectives:

The TCCC course is the military counterpart to the PHTLS course. It is designed for medics who are preparing to deploy in support of tactical operations. This course will be taught by experienced military instructors from the US Air Force.

The specifics of casualty care in the tactical setting will depend on the tactical situation, the injuries sustained by the casualty, the knowledge and skills of the first responder, and the medical equipment at hand. In contrast to a hospital Emergency Department where the patient IS the mission, on the battlefield and in hostile civilian environments, care of casualties sustained is only PART of the mission. During all phases of care, the principal mandate of TCCC is the critical execution of the right intervention at the right time. Casualty care in tactical operations must be the best possible combination of good medicine and good small-unit tactics. TCCC recognizes this fact and structures its guidelines to accomplish three primary goals:

Treat the Casualty

**Prevent
Additional
Casualties**

Complete the Mission

Target Audience

The intended audience includes military personnel, tactical and covert operations specialists, law enforcement and public safety officials and officers, first responders, emergency medical technicians, paramedics, and medical and allied health professionals.

Accreditation

The Continuing Education Coordination Board for Emergency Medical Services (CECBEMS) recognizes this course for 16 hours of approved continuing education credit to eligible participants for successful completion. To receive CECBEMS credit, you must have a current State and/or National Registry card with expiration date. MIEMSS has approved this course for 16 hours of continuing education credit for BLS: 8 hours, category M, 8 hours category T and ALS: NCCP 2 hours National, 1 hour State/Local, and 13 hours Individual.
